

Hydraulic Tool for Continuous

MADE IN FRANCE

▼ Hydraulic Tool for Continuous Cutting – Model CHT 8

Very effective for entrapment rescue operations in vehicle accidents involved in
RAILWAYS
ROAD HAULAGE
AVIATION

Continuous cutting of side members, thick metal sheets and composite materials up to 15mm thick.

Clean cut finish simplifies victim removal

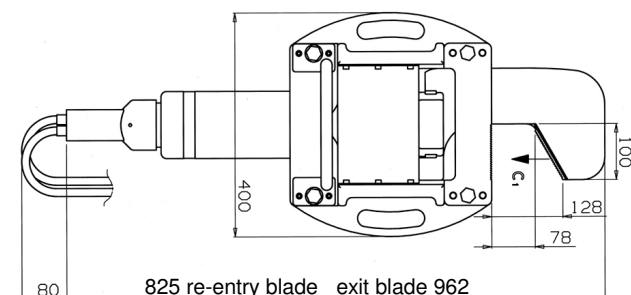

DESCRIPTION

Can be used in wet conditions.

The straight bladed hydraulic cutter allows continuous cutting of, side members, thick metal sheets or passenger compartments.

The tool comprises:

- 1 double acting cylinder
- 1 Control handle with integral safety device, ergonomic shape and piloting check valves
- 1 Set of 0.5 m long hoses with HP anti-pollution quick action couplers and metal protection stoppers
- 1 Ribbed cutter blade in high strength forged steel
- 2 Ribbed hardened steel plates
- 2 Light alloy interlinking parts with hardened steel friction blocks
- 2+2 holding handles
- Pressure relief valve for Hose on stopper end

CHARACTERISTICS

Operating pressure	700 bar
Max. cutting force C1	334 KN
Dimensions	962 x 400 x 276 mm
Weight	29 Kg

Powerful, Lightweight and Reliable in Rescue Operations
